The screenshot shows the Visual Studio Code editor interface. The Explorer sidebar on the left lists a project named 'HTML DEMO' containing several files: .vscode, adminlogin.html, donor.html, forgetpswd.html (selected), home.html, login.html, namespace-default.yaml, request.html, signin.html, style.css, success.html, test.html, and userprofile.html. The main editor area displays the content of 'forgetpswd.html', which is an HTML file for a password reset form. The code includes a title 'Plasma-ResetPassword', a container with a text-center heading, and a form with a single email input field and a submit button. There are also links for 'Back to login' and 'Register here'. The status bar at the bottom indicates the cursor is at line 23, column 1, with 4 spaces, UTF-8 encoding, and CRLF line endings.
